SUMMARY

Passionate and dedicated Software Developer with a strong foundation in full-stack development and modern web technologies. Skilled at transforming complex requirements into scalable, user-friendly applications with a focus on performance optimization and clean code. Seeking opportunities in Full-Stack Development, Web Development, MERN/PERN stack roles.

EDUCATION

M.Sc. Information Technology, KES Shroff College   June 2024 - OnGoing
B.Sc. Information Technology, LS Raheja College   June 2020 - May 2023
CGPA: 8.14

PROJECTS

SchedRx – SaaS Doctor Appointment Booking System (MERN Stack)
- Designed and implemented a full-stack platform with three-tier authentication (Patients, Doctors, Admin).
- Developed patient portal for booking, managing appointments, and making secure online payments.
- Built doctor dashboard to manage schedules, earnings, and profiles; created admin dashboard for system management.
- Integrated online payment gateway for seamless transactions.

EternaCart – Full-Stack E-commerce Website (MERN Stack)
- Built user-friendly product browsing, filtering, and cart functionality with product variants (size, etc.).
- Integrated multiple payment options: Cash on Delivery, Stripe, and Razorpay.
- Created an admin dashboard to manage product catalog, including add, update, and delete features.

Bitess – Food Ordering and Delivery Platform (MERN Stack)
- Developed authentication system for secure account creation and login.
- Implemented shopping cart and order placement with real-time order status updates.
- Integrated Stripe payment gateway for online transactions.
